EXPERIENCE

District by Zomato | Senior Product Designer

October 2024 - Present

- Owned design for the Dining vertical across discovery, content, table reservations, payments, offers, loyalty and the at-restaurant experience.
- Designed connected experiences across the dining journey, from finding a restaurant and booking a table to ordering and paying.
- Created campaign experiences and contributed visual design across dining initiatives.

Flipkart | Product Designer

July 2022 - 2024

Designed for Shopsy, an e-commerce app serving customers in India’s tier 2 and tier 3 cities.

- Increased multi-product orders by 7% and units per order by 20% by improving product exploration and cart building.
- Improved overall Shopsy conversion by 2% through checkout experiments.
- Increased search adoption by 20 basis points by improving context retention and search affordances.
- Contributed to Shopsy’s design system, conducted user research to test flows, and partnered with product teams on product strategy.

Meesho | Product Design Intern

2021

- Worked on Meesho’s careers website to help attract technology talent.
- Redesigned the account page’s information architecture, using card sorting with users to group content and establish a clearer hierarchy.
